

Portfolio Website

Try this simple **Personal Portfolio Project**.

1. The **background** is completely white, the black shade is due to screenshot effect.
2. Try to make website **mobile responsive**.
3. Try Implementing **Dark Mode** using CSS Variable.
4. You can add **additional anything** you want to and can refactor existing things that best suits your profile.
5. The **deadline** of the project is by end of this month.

For some features you will need JS and by the time we will have covered those topics.

About Me

My introduction

Web developer, with extensive knowledge and years of experience, working in web technologies and Ui / Ux design, delivering quality work.
